

How to add EDVA League, Fixtures and Results to your Club's Web Site

The EDVA League, program uses iframe commands that allow clubs to display their appropriate league fixtures and results on their own web site.

The following are the basic instructions for your web site administrator to display the information on any web site. There are several example of this working which you can view e.g. on the Volleyball Taunton and the Torexe web sites.

The following iframe text is an example of what needs to be added to the required web page to display the league tables.

```
<iframe src='http://  
www.edva.volleyballmatches.co.uk/minitable.asp?teamname=Volleyball  
Taunton&width=495' scrolling=no frameborder=no  
style='width:500px;height:220px'></iframe>
```

First, change the team name Volleyball Taunton in the example above to your team name, as it is displayed in the main EDVA league table.

In the bit that says

```
src='http:// www.edva.volleyballmatches.co.uk/minitable.asp?teamname=Volleyball  
Taunton&width=495'
```

you can add other parameters by adding "¶meter=value"

mainbackcolor - the colour behind the table (default is white)

backcolor - the background colour of the table (default is yellow)

forecolor - the main text colour on the table (default is black)

titlebackcolor - the background colour of the header

titleforecolor - the text colour of the header

width - the width of the table (default is 400) - don't add units

fontsize - the size of the font used in the table (default 12) - don't add units

If you change the width, you also need to change the width of the iframe ("style='width:500px;height:220px'"). You may need to experiment with the height as well.

If you're not too computer-literate, then most common colours are supported, e.g. red, yellow, lightblue, etc.

e.g.

```
<iframe src='http://  
www.edva.volleyballmatches.co.uk/minitable.asp?teamname=Volleyball  
Taunton&width=300&fontsize=8&bgcolor=lightblue' scrolling=no frameborder=no  
style='width:305px;height:220px'></iframe>
```

This will show a smaller width table, with a smaller font size, with a light blue background.

To display both the fixtures and the league tables, please follow the example below:

```
<iframe src='http://  
www.edva.volleyballmatches.co.uk/minifixtures.asp?teamname=Volleyball Taunton'  
scrolling=no frameborder=no  
style='width:810px;height:500px'></iframe>
```

Parameters

fontsize=12 the font size
bordersize=2 the border width

showhometeam=y y or n - if n will display both teams, if y then
only declared team

fixturesonly=y y or n - if y then won't show results

noscores=y y or n - if y will only show result, not scores

noreport=y y or n - if y wont show report icon

&mainbgcolor=white the main background colour

&color=black the main foreground colour

&bgcolor1=lightyellow the first background colour

&bgcolor2=lightgreen the second background colour

&titleforecolor=white the title foreground colour

&titlebgcolor=black the title background colour

Any problem please contact the Competition Secretary.
